OUR VALUES

EQUITY

All children deserve the opportunity to develop their full academic and social potential. Valuing equity means that we must provide resources and supports matched to student need, for every student in every school. Our diversity is a community treasure, and we must foster an inclusive environment by examining biases and resolving unfair practices.

CHARACTER

We are honest, trustworthy and have high standards of behavior. We make decisions, take action and approach our work based on what is best for our students and their success. We do the right thing even when it is hard. We face difficulty with courage and have the moral fortitude to act in accordance with our beliefs. While we do not always agree, we treat one another with kindness and respect.

EXCELLENCE

Tulsa needs and expects world-class public schools. We work hard together and expect a lot of one another because high standards produce exemplary knowledge, skills, abilities and mindsets. Achieving excellence means striving for it every moment of every day. It means sweating the small stuff while we focus on the big picture with determination and persistence.

TEAM

We care for one another, support the personal and professional development of one another, and work together to improve our community. Together we celebrate success, learn from struggles and invest in the development of our teams and team members. While we value our work together and invest mightily in it, we also honor and respect the commitments our team members have to their families and communities outside of work.

JOY

We love to have fun! Play is invaluable for students and adults alike. Joy at school and at work makes us more productive, because when we create, innovate and imagine, our motivation grows. At Tulsa Public Schools, we foster exuberant classrooms, schools and places of work where children and adults pursue their passions and are relentlessly curious. We want to ensure that everyone knows the excitement that comes from working deeply on a problem, task or concept and experiencing breakthrough moments.

OUR BELIEFS

OUR STUDENTS CAN

Every child can learn. Every child has talent. Every child has value. Great education is demanding and engaging, structured and joyful, challenging and supportive. To succeed in a competitive world and to serve as the next generation of leaders, students must engage in their education, own their learning and feel accepted and supported in our schools.

OUR TEACHERS MAKE IT HAPPEN

Extraordinary teachers are the heart of successful schools. They must continually hone their craft and content knowledge to design engaging learning and facilitate success in every student. We require much of our teachers, and we must provide the conditions and work environments that promote professional satisfaction and student achievement. This means that our entire community must value, respect, and support teachers as the irreplaceable professionals they are.

OUR PRINCIPALS ARE KEY

Principals' responsibilities are strategic, vast and intense. As leaders, they must be visible, hire the right staff, cultivate talent, build relationships with families and communities, foster positive and safe school culture and ensure results. As such, the education service center must support principals' growth as instructional leaders and be their primary support system in strengthening the quality of teaching and learning in all classrooms.

OUR DISTRICT IS "ALL IN"

Effective teams collaborate and continually assess and improve their service to schools. They attend to present needs while preparing for the future. This means our employees and board must work together, reflect, adjust, think ahead and innovate in service to powerful teaching and learning.

OUR COMMUNITY IS ESSENTIAL

Our children and schools need all of us—educators, families, and community partners. High quality schools are vital to the health of our community. We must engage our families and all of Tulsa by embracing transparency, holding ourselves accountable to high standards, proactively communicating and working as a team united in the success of every student.

Families: The most important component in a child's education

Success in the classroom and life!

There is no one more important in helping a child succeed than you. What you do at home can make a big difference in how well your children perform in school.

- Attend conferences to find out how well your child is performing.
- Discuss the importance of going to school every day with your child.
- Make sure your child has a quiet place to study and that they complete all homework assignments.

You are your child's greatest cheerleader!

Let your children know that school is important and that you are interested in their progress and

- What they did at school
- What homework must be finished for the next day
- What needs to be done on a future project

Reading and Writing

- Listen to your child read. Read stories aloud to them
- Talk about what you and your child are reading.
- Ask questions and discuss words that are new or difficult.
- Encourage your child to write lists, notes, journals, recipes, short stories, and other types of writing used in everyday life.
- Talk with your child about writing assignments.
- Set a limit on the amount of time your child watches television or uses electronic devices.

Mathematics

- Review homework every day with your children to make sure assignments are completed. Ask your child to explain some of their math problems and how they solved them.
- Have your child help solve "real" mathematical problems as you play games, cook a meal, or prepare to do a home project.
- Show your child how math is used in everyday life, including cooking, shopping, making crafts, sewing, or doing home repairs.
- Help your child read charts or graphs in newspapers and magazines. Read maps when going on a family trip.

State Tests

Tulsa Public Schools students take state mandated tests each year to determine their academic progress.

- Discuss upcoming tests with your children and reassure them that test results provide useful information about what they know and what they still need to learn.
- Make sure your children attend school on testing days.

- Make sure your children get a good night's rest and have a nutritious breakfast.

PowerSchool Parent Portal

The Parent Portal keeps everyone connected—students stay on top of assignments, parents participate more fully in their student's progress, and teachers share important information. You can access the Parent Portal at www.tulsaschools.org. Click on "Parents" and then click the PowerSchool Parent Portal.

Parent Notice of Interpretation and Translation Services

Contact Laura Grisso 918.746.6487

Tulsa Public Schools is committed to providing quality and professional translation (written) and interpretation (oral) services to families so that they can have an active role in their children's education.

To enable effective communication with Limited English Proficient parents and guardians, interpretation and translation services are available at no cost to parents and guardians. A parent or guardian does not have to be of limited English proficiency in speaking, reading, writing and comprehending English to be eligible for interpretations or translation, but rather, it is only necessary that a parent or guardian be limited in at least one of these areas to receive services.

To request an interpreter of a spoken language or translation of a school document, please contact the main office at your school. School staff will use site-based resources to fulfill the request or the Title III Office will be contacted to provide additional interpretation or translation resources as requested.

Additional information regarding interpretation and translation services, resources and request forms can be found at www.tulsaschools.org.

Social Emotional Learning

It is crucial to pay attention to the development of the whole child, including their social and emotional well-being. Families are a child's first teacher in demonstrating:

- Self Awareness;
- Self Management;
- Social Awareness;
- Relationship Building; and Responsible decision making.

When families focus on creating an environment of trust, respect and support, their children are better equipped to reflect on their interactions and decision. Modeling "emotionally intelligent" behavior at home is the first step in nurturing emotionally intelligent children.

Attendance Matters for Parents and Families

Your child's daily, on time attendance in school is critical to his or her academic and personal success. It is understandable that some challenges to your child's school attendance are unavoidable, such as an illness or a family emergency. However, it is important to understand the impact of absences from school, especially if they become frequent.

DID YOU KNOW?

Children can suffer academically even if they miss one or two days of school per month.

Take Action to Help Eliminate Chronic Absenteeism

Parents and Families:

- Make getting to school on time everyday a priority in your family.
- Talk with your child about the importance of school attendance from an early age and the negative effects of too many absences.
- When necessary, create a safe space for your child to share what is keeping him/her from participating in school on a regular basis.
- Have a back-up plan for getting your child to school when there are difficulties with transportation, a family illness, or other challenges.
- Schedule appointments for after school hours whenever possible.
- Monitor student's school attendance to make sure your child is in class every day.
- Contact your child's school to discuss supports and services that can help maintain regular school attendance.

Safety, Security and Health

Protecting Our Future

The mission of the Tulsa Public Schools Campus Police Department is to provide a safe environment. The department emphasizes improved quality of life within the school district for all students, faculty, staff, and authorized visitors. We do so with pride, integrity and a commitment to quality services. Our success is measured by the success of our students.

Emergency Preparedness

Being prepared for emergencies is important to Tulsa Public Schools. The district's Safe Schools Plan, as required by Oklahoma Title 70 § 24-100 and 24-100.5, requires every school to have a Safe School Committee and a Healthy and Fit Committee. The committees include teachers, parents, students, administrators, health care professionals, community members, law enforcement, citizens, clergy, and nonprofit health organizations.

Each school's emergency management plan is reviewed and revised annually and after each emergency.

TPS Board Policy 7307 requires schools to have emergency plans for fires, bomb threats, suicide intervention, tornadic/severe weather, intruder-on-campus/lockdown, student endangerment, child abuse, accident/serious illness, student runaway/abduction and atmospheric chemical release.

Frequently Asked Questions

How does TPS respond in the case of an emergency?

When an emergency occurs, there are three possible plans of action:

- 1. Go Home Plan:** Returns students to their homes as quickly and safely as possible. Each school maintains information for emergency contacts for each child. **It is very important that parents and legal guardians inform the school when emergency contact information changes.**
- 2. Shelter-in-Place Plan:** Keeps students in their buildings. Specific areas within each building are identified as safety zones.

The shelter plan may include a partial or complete lockdown of the school. In this case, students remain in their classroom until otherwise notified. Students in buildings who are not in classrooms will be escorted by staff to a supervised area and remain there until otherwise notified. **No one will be allowed to enter or leave the school for any reason.**

- 3. Evacuation Plan:** Requires that all building occupants exit the building and go to a previously identified, safe alternate location. Evacuation may mean only going outside and away from the building until an all-clear signal is given. In some circumstances, students and staff may need to be transported and housed

temporarily in another location.

How will I know where to pick up my child if a school is evacuated?

In the event students must be moved to an alternate location, the school will use a number of communications tools to advise parents. (See "Where should I get accurate information during a school emergency?")

Schools have several alternative locations, depending on the severity of the emergency and the number of school buildings involved.

Police, fire, and county and state authorities know of the alternate locations for each school. For security reasons TPS does not disclose alternate locations until an actual emergency occurs.

Does TPS have emergency practice drills?

Oklahoma law requires schools to have a minimum of two lock-down drills each school year and two fire drills each semester. The first fire drill is conducted in the first 15 days of each semester.

Emergency drills are conducted at various times during the school day so students and staff can practice what to do regardless of where they are or what they are doing. Additional drills and simulations may be conducted several times throughout the year.

Should I pick up my child at school during an emergency?

NO. While every guardian's instinct in an emergency is to go to the school to safeguard their child, doing so may interfere with the school's ability to effectively respond to the situation. **We strongly encourage parents NOT to come to the school during an emergency unless directed to do so by the district.** In most cases, school district administration and district and local emergency responders are the only individuals allowed to enter or leave campus or buildings during emergencies.

In the event of an emergency, school staff will work to ensure the safety of students. In a fast moving situation that requires careful coordination and communication; extra vehicles and visitors to the school make the task of keeping track of students much more difficult.

What provisions are made during emergencies for students with disabilities?

Schools have a detailed plan of action that includes evacuation of students or staff who have special needs.

Where should I get accurate information during a school emergency?

You will likely not be able to reach your child’s school by telephone during a true emergency because staff members’ priority is ensuring student safety. They are often busy communicating with their safety committee, students, and emergency responders. School officials will send updates about the situation to the TPS Communications Department to advise parents and the public. School principals designate a single person to contact the district’s Communications Department with all of the pertinent information. The district spokesperson will communicate with the parents as early and often as possible.

Parents are asked to call the school as a last resort. Up-to-date information can be found at the following:

- www.tulsaschools.org
- www.facebook.com/tulsapublicschools
- twitter.com/TulsaSchools
- SchoolWay app: www.tulsaschools.org/app
- Recorded messages and e-mails from the district’s automated message system using each student’s emergency contact information
- 918-746-6800 recorded message
- Major local media and their websites (Tulsa World, KJRH channel 2, KOTV channel 6, KTUL channel 8, Fox 23, 740 AM radio KRMG and 1170 KFAQ)

News media will carry public information about certain emergency situations. In situations that impact the safety of a significant number of students, the media will be kept up-to-date on developments and will be asked to broadcast emergency information.

What can I do to plan ahead?

The three most important things a parent or guardian can do to prepare are:

1. Make certain your child’s school has up-to-date emergency contact information
2. Talk with your child about the importance of following the instructions of his or her school’s staff during emergencies
3. Periodically review with your child alternative arrangements in case you cannot be reached in an emergency

Health Issues at Your Child's School

How can I help make my child's school a healthy place to learn?

Always inform the school nurse/health assistant about the following:

- Specific needs, limitations, restrictions, or concerns indicated by a doctor, dentist or other healthcare provider.
- All immunizations, boosters, or restrictions obtained from licensed health care providers.
- Changes in eye exams and any restrictions, limitations, or accommodations needed.
- Medications (prescription and non-prescription) your child routinely takes at home or school.
- All medications taken at school, even nonprescription, must be turned in to the school health clinic. (Request an appropriate authorization form from the clinic if you know your child will require medications at school.)
- Call the school office to report absences due to illness every day your child is out. If your child is absent three or more days, you may be asked for a note from your healthcare provider when your child returns to school.
- A phone number and emergency number where parent, guardian, or person responsible for student's care can be reached.
- If you have questions or concerns related to your child's health, contact the school health clinic.

When should I keep a sick child home from school?

The three most important things a parent or guardian can do to prepare are:

- If your child's temperature is 100 degrees or higher, the Centers for Disease Control recommends you keep your child home until 24 hours after the fever is gone (without the use of medications).
- A child with a severe or persistent cough should stay at home and possibly see a doctor.
- If your child has diarrhea or is vomiting, keep them at home until 24 hours after the last episode (without medication).
- If you have concerns about your child's health, call your healthcare professional.

Should my child go to school if other children are sick?

It is not unusual for children to get sick during school. It is up to you to decide whether to send your child to school. You might want to check with your doctor, especially if your child has other health problems.

What should I do during flu season (October through May)?

According to the CDC, the flu (influenza) is an infectious illness of the nose, throat, and lungs that is caused by the Influenza virus. Most people with flu feel better after about a week of serious illness.

A flu vaccine is the best way to protect against the flu. Flu shots can be given to children six months and older. Nasal spray vaccines can be given to healthy children two years and older. Children under five years old who have had wheezing in the past year, or any child with chronic health problems, should get the flu shot.

Most people with the flu feel tired and have fever, headache, dry cough, sore throat, runny or stuffy nose and sore muscles. Some people, especially children, may also have upset stomachs and diarrhea. A cough can last two or more weeks. Call or take your child to a doctor right away if they:

- Have a high fever or fever that lasts a long time;
- Have trouble breathing or breathes fast;
- Have skin that looks blue;
- Not drinking enough;
- Confused, will not wake up, does not want to be held, or has seizures (uncontrolled shaking);
- Gets better but then worsens again; or has other conditions (like heart or lung disease, diabetes) that get worse.
- People spread the flu by breathing in droplets from an infected person's cough or sneeze or from germs spread from hand to mouth.
- TPS' Health Services Department offers free flu vaccinations at school sites for students who qualify for the State Vaccine for Children's Program. For details, contact your school health clinic or TPS.

Health Services Department

The Tulsa Health Department (THD) offers free influenza vaccine clinics during flu season. THD is a wealth of information about influenza, vaccine clinics and other health issues.

What happens if head lice or bed bugs are reported at my child's school?

Lice can be found on persons of any age, race, gender or socioeconomic class. Having head lice is not an indication of insufficient hygiene or poor living conditions. Lice do not jump or fly. They crawl from one person to another or use an object as a transmission vehicle.

As advised by the Oklahoma Health Department, TPS uses the following protocol, which focuses on prevention and treatment of identified cases.

Head Lice Screenings:

1. All students are screened at the elementary schools at the start of the school year, after winter break and spring break. Screenings should be completed by the third week of school. They are also conducted as needed or upon request.
2. Middle and high schools are screened on an as-needed basis.

Bed Bugs:

Bed bugs are usually active at night when people sleep. They are usually not seen during daylight hours. Although bed bugs are becoming a very common problem, they are not known to transmit diseases. The home of any person can be infested by bed bugs, regardless of gender, race, or economic status. If a suspected bed bug is found on a student, the following protocol will be followed:

1. The student will not be sent home. The parent, legal guardian, or person responsible for the student’s care will be notified.
2. The student will temporarily be removed from the classroom. An inspection of clothing, belongings, etc. will be done in a confidential and private area.

3. There will be positive identification of the bug by a pest management company. If positive identification, appropriate actions taken as outlined in the TPS Bed Bug Protocol. The Bed Bug Protocol has helpful suggestions for the home when bed bugs are suspected or present.

The TPS protocol on head lice screenings and bed bugs can be found on the TPS website at www.tulsaschools.org under “Parents: Health Services.” You can also contact your child’s school health clinic or TPS Health Services at 918-746-6364.

Health Question?

Contact your child’s school health clinic, TPS Department, or Tulsa Health Department at 918-582-WELL (9355).

What immunizations does my child need for the 2017-2018 school year?

If you have questions about immunizations, contact your child’s school health clinic, the TPS Health Services Department at 918-746-6364, or Tulsa Health Department at 918-582-WELL (9355).

Tulsa Public Schools Behavior Response Plan (BRP)

Creating safe, supportive, and joyful learning environments

Office of Student and Family Support Services in collaboration with the Tulsa Classroom Teachers Association, Tulsa Association of Elementary School Principals, Tulsa Association of Secondary School Principals

Students, teachers, and leaders will work with families and community partners to foster safe, supportive, and joyful learning environments that emphasize acceptance and inclusion for all. Students will positively contribute to their communities by respecting themselves and others, displaying empathy, acceptance and kindness, and solving disagreements respectfully and peacefully. Educators and support staff will model the same care and respect.

Tulsa Public Schools utilizes the Response to Intervention (RTI) design that incorporates research based interventions to support student success. The strategies in this document have been designed to align with the philosophy and practices of Positive Behavior Supports.

Applicability

The policy, rules, regulations, and procedures published in this booklet apply to the following:

- On school property – immediately before and after school hours as well as during the school day without regard to whether adults are present.
- On athletic fields, on school buses, in areas immediately adjacent to the school, and in all other places where school functions occur or where school activities normally take place.
- Throughout the course of any school field trip or other officially sponsored school activity.
- To off campus conduct where the student's continued attendance at school is a threat or would have an adverse impact on order, discipline, or the educational process.

Expectations for student behavior in Tulsa Public Schools

The Tulsa Board of Education, by its authority, establishes the following student behavioral expectations as a necessary part of the learning process. These behavioral expectations are critical to academic development.

All students will:

- **Show respect to others and for the rights of others**
- **Behave in a courteous manner**
- **Respect the authority of all school personnel**
- **Learn and demonstrate acceptable social behavior**
- **Bring necessary materials to all classes and actively participate in the learning process**
- **Contribute to a positive learning environment through appropriate personal hygiene habits and clothing consistent with the school dress code**
- **Adhere to all school rules and regulations**

The principal is authorized by law to recommend a change of student placement and suspend students for violation of public school regulations.

The teacher has the authority to remove a student from the classroom to a designated authority when the student interferes with the teaching/learning environment of the class. At the time of removal, the teacher may request that the student not be returned to that classroom until a conference is held between the teacher and the designated authority.

Corporal punishment is prohibited. No student will be subject to corporal punishment by teachers, administrators, students, or other school personnel. Physical restraint is permitted only if it is reasonable and necessary in order to protect people and property.

Discipline Reviews

Discipline reviews of all long term suspensions (11 days or more) and requests for assignment to alternative programs will be conducted by the Director of Family Advocacy. The review is to ensure fairness and equity in accordance with the established policies and procedures outlined in this Behavior Response Plan (BRP) and Board Policy.

Behavior Response Plan — Elementary

This BRP cannot cover every set of circumstances in the diverse and complex social setting of public schools. The administrator may find it necessary to use intervention or discipline options and procedures not covered specifically in these regulations.

Implementation of appropriate interventions and disciplinary responses take into account a number of factors including the nature and severity of the misconduct. In many cases, the use of primary responses and/or the use of school-based interventions may be most suitable. In other cases, a student’s misconduct may be appropriately addressed by a district disciplinary response along with interventions and student supports. Tulsa Public Schools will provide a comprehensive student support program including guidance services, opportunities for social emotional learning and student engagement opportunities. Each school has a system in place for early identification of students in need of intervention and/or support services.

- **Short term suspension is defined as 10 days or less.**
- **Long term suspension is defined as 11 days or more.**
- **Students in PK and K will not receive suspensions of more than 5 consecutive days at a time.**

Repeated or persistent violation of Level 100 infractions can result in level 200 or level 300 disciplinary responses when level 100 interventions are not effective.

appropriate. While a hearing is pending, the suspension will be held in abeyance allowing the student to have the right to attend school under such In-School-Intervention (ISI) restrictions as the principal deems proper. However, participation in any extra-curricular activity is prohibited. Please refer to Tulsa Public Schools Policy 2619 and 2619-R for additional details.

The exception, at the discretion of the principal, is the student may be prohibited from attending school and participation in extra-curricular activities pending the appeal hearing, if in the judgment of the principal, the conduct for which the student was suspended reasonably indicates continued attendance by the student would be dangerous to other students, staff, or school property, and/or interfere with the educational process at school.

According to state law, such appeals are limited to one or both of the following:

- Is the student guilty of a violation of the school rules and regulations?
- Is the term of the suspension reasonable and in compliance with the Behavior Response Plan?

Site Suspension Review Committees

Site Suspension Review Committees (SSRC) are created at each school through the following process:

- Administrators must attend a mandatory district training.
- Administrators must train their site based volunteers at the beginning of the school year.

- The principal may also appeal the SSRC's decision to the Superintendent or designee within five school days after the SSRC's decision.
- The Superintendent or designee will schedule a hearing as soon as possible, notify the parent/guardian of the time and place of the hearing at least 24 hours prior to the hearing, and notify the parent/guardian that they and the student have a right to be present at the hearing.
- The Superintendent or designee will review the facts; determine the guilt or innocence of the student; the reasonableness of the term of the suspension; and decide to sustain, rescind, or modify the out-of-school suspension (including change of category, this is for Superintendent designee only), or change the out-of-school suspension to an alternative school placement. The Superintendent's designee will notify the student's parent/guardian of the decision in writing.
- If the parents or student are not satisfied with the decision of the Superintendent or designee, the parents/student may further appeal to a Hearing Officer, except that a decision to change the out-of-school suspension to an alternative school placement is not appealable. According to state law, such appeals are limited to one or both of the following: determination of the guilt or innocence of the student and the reasonableness of the out-of-school suspension.

Hearing Officer Appeal process requirements:

- A written request from the student's parent/guardian must be made to the Clerk of the Board of Education within five school days after the parent/guardian has been notified of the Superintendent's decision.

ATTENDANCE (GENERAL)

Please take time to familiarize yourself with Board Policy 2204, "Student Attendance," and discuss it with your family. If you have questions, please contact the school principal. **PURPOSE:** To specify the Board's intention regarding student attendance expectations and to clarify the impact absenteeism may have upon a student's potential for promotion or earning passing grades.

All absences must have a written or verbal explanation provided by the parent/guardian within 48 hours of the student's return to school. An absence for which no acceptable explanation is received shall be deemed unexcused.

For the full Board Policy 2204, "Student Attendance," go to www.tulsaschools.org.

Oklahoma's Compulsory Education Law 70-10-105, requires the parent/guardian to notify the school regarding the reason for absence of a school-age child. The law also requires the school to notify the parent/guardian of a child's absence.

Students shall be in attendance a minimum of 90% of instructional time scheduled for a particular class/course in that school (or grade) and make satisfactory academic progress in order to be unconditionally recommended for a passing grade. All absences (excused and unexcused) shall be included in the calculation of the 90% attendance minimum except that excused absences for religious holidays shall not be counted for the purpose of determining a student's eligibility for promotion or credit.

Attendance problems requiring action include the following:

- A student is habitually tardy without a valid excuse.
- A student has been absent without a valid excuse for four or more days or parts of days within a four week period, and the school has not been notified by parent/guardian.
- Administrative procedures to be followed regarding non-attendance include the following sequence:

- The case will be turned over to an attendance officer.
- The case will be filed with the District Attorney for prosecution (may result in fines/court costs).

ATTENDANCE — INTERSCHOLASTIC ACTIVITIES

All students who participate in interscholastic activities must adhere to the attendance rules established by the Oklahoma Secondary School Activities Association as well as all rules and regulations of the district related to participation in such activities.

TULSA PUBLIC SCHOOLS Policy 2119 STUDENT BULLYING PREVENTION AND INTERVENTION

PURPOSE: To address student bullying behavior effectively through a multi-faceted approach that includes education and the promotion of a positive school atmosphere. The Board expressly prohibits any form of bullying behavior by students at school as well as active or passive support for acts of bullying. In addition, the Board prohibits bullying behavior by students outside of the regular school day if it causes a substantial and material disruption at school or an interference with rights of students and personnel to be secure. This includes but is not limited to bullying through electronic communication, whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns bullying at school. The Superintendent or his/her designee will develop a regulation to support and provide specific procedures for implementation of this policy. The Superintendent or designee will also ensure that each site principal implements administrative regulations in furtherance of this policy. Students who engage in bullying behavior shall be subject to school discipline, up to and including suspension out of school in accordance with the policies, rules and regulations of the District's Board of Education.

Student and Staff Education and Training

The District is committed to providing appropriate and relevant training annually to students and staff regarding preventing, identifying, responding to and reporting incidents of bullying. A full copy of this policy will be posted on the District's website and included in all District handbooks. Parents, guardians, community members, and volunteers will be notified of the availability of this policy through the District's annual written notice of the availability of the district's anti-bullying policy. Written notice of the policy will also be posted at various places in all District school sites. Students and staff will be periodically reminded throughout the year of the availability of this policy, the District's commitment to preventing bullying, and help available for those affected by bullying. Anti-bullying programs will be incorporated into the District's other violence prevention efforts. All staff will receive annual training regarding preventing, identifying, reporting, and managing bullying. The district's bullying coordinator and individuals designated as school site investigators will receive additional training regarding appropriate consequences and remedial action for bullies, helping targets of bullies, and the District's strategy for counseling and referral for those affected by bullying.

Students will receive annual education regarding behavioral expectations, understanding bullying and its negative effects, disciplinary consequences for infractions, reporting methods, and consequences for those who knowingly make false reports. Any person who knowingly makes false accusations against another person will be appropriately disciplined pursuant to District policy. Any accusations confirmed to be false will be removed from the falsely-accused student's file. Parents and guardians may participate in a parent education component.

Student Reporting

Students are encouraged to inform school personnel if they are the target of or a witness to bullying. To make a report, students should notify a teacher, counselor, or principal. The employee will give the student an official report form and will help the student complete the form, if needed. Reports can also be made by any student, parent, or patron through the District's TIPS (Threat Assessment, Incident Management and Prevention Services) online reporting system found on the District's website or by telephone at 918-746-6868. Students may make an anonymous report of bullying, and such report will be investigated as thoroughly as possible. However, it is often difficult to fully investigate claims which are made anonymously and disciplinary action cannot be taken against an alleged bully solely on the basis of an anonymous report.

Staff Reporting

Staff members will encourage students to report bullying. All employees are required to report acts of bullying to the school principal or his/her designee on an official report form. Any staff member who witnesses, hears about, or has reliable information that would lead a reasonable person to suspect that a student is a target of bullying is required to submit a report.

Bullying Investigators

Each school site will have a designated individual and an alternate to investigate bullying reports. These individuals will be identified in the site's student and staff handbooks, on the District's website, and in the bullying prevention education provided annually to students and staff. The District's anti-bullying program is coordinated at the District level by the District's Director of Student and Family Advocacy.

Investigating Bullying Reports

For any alleged incidents of bullying reported to school officials, the designated school official will investigate the alleged incident(s) and determine (i) whether the bullying conduct occurred, (ii) the severity of the incident(s), and (iii) the potential for future violence. In conducting an investigation, the designated official shall interview relevant students and staff and review any documentation of the alleged incident(s). School officials may also work with outside professionals, such as local law enforcement, as deemed appropriate by the investigating official. In the event the investigator believes a criminal act may have been committed or there is a likelihood of violence, the investigator will immediately call local law enforcement and the superintendent or his/her designee. At the conclusion of the investigation, the designated employee will document the steps taken to review the matter, the conclusions reached and any additional action taken, if applicable. Further, the investigator will notify the district's bullying coordinators that an investigation has occurred and the results of the investigation.

Upon completion of an investigation, the school may recommend that available community mental health care or substance abuse options be provided to a student, if appropriate. The school may provide a student with information about the types of support services available to the student bully, target, and any other students affected by the prohibited behavior. These resources will be provided to any individual who requests such assistance or will be provided if a school official believes the resource might be of assistance to the student/family. No school employee is expected to evaluate the appropriateness or the quality of the resource provided, nor is any employee required to provide an exhaustive list of resources available. All school employees will act in good faith.

The school may request the disclosure of information concerning students who have received substance abuse or mental health care (pursuant to the previous paragraph) if that information indicates an explicit threat to the safety of students or school personnel, provided the disclosure of the information does not violate the requirements and provisions of the Family Educational Rights and Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, OKLA. STAT. tit. 12 § 1376, OKLA. STAT. tit. 59 §1376 of the Oklahoma Statutes, or any other state or federal laws regarding the disclosure of confidential information. The school may request the disclosure of information when it is believed that the student may have posed a danger to him/herself and having such information will allow school officials to determine if it is safe for the student to return to the regular classroom or if alternative education arrangements are needed.

Parental Notification

The assigned investigator will notify the parents of a target within two (2) school days that a bullying report has been received. Within two (2) school days of the conclusion of the investigation, the investigator will provide the parents of a target with the results of the investigation and any community resources deemed appropriate to the situation. If the report of bullying is substantiated, within two (2) school days of the conclusion of the investigation, the investigator will contact the parents of the bully to discuss disciplinary action and any community resources deemed appropriate to the situation.

Parental Responsibilities

All parents/guardians will be informed in writing of the District's program to stop bullying and will be given a copy of this policy upon request. An administrative response to a reported act of bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent

bullying at school they should encourage their children to:

- Report bullying when it occurs;
- Take advantage of opportunities to talk to their children about bullying;
- Inform the school immediately if they think their child is being bullied or is bullying other students;
- Watch for symptoms that their child may be a target of bullying and report those symptoms; and
- Cooperate fully with school personnel in identifying and resolving incidents.

Monitoring and Compliance

In order to assist the State Department of Education with compliance efforts pursuant to the School Safety and Bullying Prevention Act, 70 OKLA. STAT. § 24-100.2 et seq., the district will identify a bullying coordinator who will serve as the District contact responsible for providing information to the State Board of Education. The bullying coordinator shall maintain updated contact information on file with the State Department of Education and the School District will notify the State Department of Education within fifteen (15) days of the appointment of a new bullying coordinator. A copy of this policy will be submitted to the State Department of Education by December 10th of each school year as part of the District's Annual Performance Report.

The Administration recognizes that there are many motivations behind the act of bullying, one of which may be for a discriminatory purpose. If the bullying behavior constitutes discriminatory harassment, intimidation or bullying, it is targeted toward an individual because of race, color, religion, sex, sexual orientation, age, national origin, marital status, veteran status, disability or genetic information), the misconduct is prohibited pursuant to District Policy 4902 regarding Discriminatory Harassment, Intimidation and Bullying and is subject to the procedure and protections specified in 4902 in addition to this policy. Retaliation is expressly prohibited against any person who participates in reporting, investigating or addressing any incident of bullying behavior. A principal's decision to limit or revoke bus riding privileges is final and may not be appealed.

Child Abuse Reporting (See TPS Board Policy 2110 and 2110-R)

Oklahoma law requires teachers, nurses, and all other school personnel having reason to believe that a child under the age of eighteen (18) years is a victim of abuse or neglect to promptly report to the Department of Human Services. Reports may be made in writing, personally or any other method prescribed by the department. School nurses, health assistants or any other health care professional examining, attending, or treating the victim of what appears to be criminally injurious conduct, including, but not limited to, child physical or sexual abuse as defined by the Oklahoma Crime Victims Compensation Act, must report orally or by telephone the matter promptly to the nearest law enforcement agency in the county wherein the criminally injurious conduct occurred, or if the location where the conduct is unknown, the report shall be made to the law enforcement agency nearest to the location where the injury is treated. Failure to report such information promptly, making false reports, or reporting with lack of factual foundation, shall be a misdemeanor.

The law also grants immunity from any civil or criminal liability to a person who in good faith makes such a report. It is not the responsibility of school personnel to prove the child has been abused or neglected. Evidence of child abuse may consist of physical marks on the body, sexual abuse, exploitation or neglect.

The following state definitions give guidance on what constitutes child abuse or neglect:

"Abuse" — harm or threatened harm to a child's health, safety or welfare by a person responsible for the child's health, safety or welfare including sexual abuse and sexual exploitation. Harm or threatened harm to a child's health or safety" includes, but is not limited to:

- Non-accidental physical or mental injury,
- Sexual abuse,
- Sexual exploitation,
- Neglect,
- Failure or omission to provide protection from harm or threatened harm, or abandonment;

"Neglect" means failure or omission to provide:

- Adequate food, clothing, shelter, medical care, and supervision,
- Special care made necessary by the physical or mental condition of the child • abandonment.

"Sexual abuse" includes, but is not limited to, rape, incest and lewd or indecent acts or proposals made to a child, as defined by law, by a person responsible for the child's health, safety or welfare.

"Sexual exploitation" includes, but is not limited to, allowing, permitting, or encouraging a child to engage in prostitution, as defined by law,

by a person responsible for the child's health, safety or welfare or allowing, permitting, encouraging, or engaging in the lewd, obscene, or pornographic photographing, filming, or depicting of a child in those acts as defined by the state law, by a person responsible for the child's health, safety or welfare.

The reporting obligations are **individual**, and no employer, supervisor, or administrator shall impede or inhibit the reporting obligations of any employee or other person. No employer, supervisor or administrator of any employee or other person required to provide information can discharge this responsibility, discriminate or retaliate against, the employee or other person who in good faith provides such child abuse reports or information, testifies, or is about to testify in any proceeding involving child abuse or neglect; provided that the person did not perpetrate or inflict such abuse or neglect. Any employer, supervisor or administrator who discharges, discriminates or retaliates against the employee or other person shall be liable for damages, costs and attorney fees. Every employee who reports child abuse/neglect to DHS shall immediately thereafter advise the principal, the principal's supervisor or the Director of Health Services.

Appropriately identified investigators of the Department of Human Services or the District Attorney's office will be permitted access to a student involved in suspected child abuse, or neglect.

To facilitate the reporting process, upon receiving notification by the District employee, who made the original report to DHS, of any suspected case of child abuse or neglect, regardless of the identity of the alleged abuser, the principal will immediately call the nurse to assess the child. If the nurse is not on site, the nurse should be paged. If the evidence appears to confirm the suspicion, the principal or designee will immediately phone the Child Abuse Office of the Oklahoma Department of Human Services and also the dispatcher at the Tulsa City Police Department. The principal or designee will complete the District's Child Abuse Report, giving all pertinent details regarding the case. The report will be signed by the principal, the nurse and any other employee involved.

If the employee, making the initial report to DHS does not have a principal or principal's designee to whom to report, the employee will make the report to the employee's immediate supervisor. The employee's immediate supervisor will promptly forward the report to the child's principal or designee.

The principal or designee will arrange the interview in a manner that minimizes embarrassment to the child. The principal will not contact the parent/guardian or other person responsible for the child's health or welfare before the interview. District employees will not be present during the interview, except that a Campus Police Officer may be present as an observer or participant in the interview if requested by a representative of the Tulsa Police Department.

The principal will retain the original completed District Child Abuse Report form and send the remaining copies to TPS Health Services for distribution to the Child Abuse Registry of the Oklahoma Department of Human Services. Upon request, TPS Health Services will also send a copy of the Child Abuse Report form to the Tulsa City Police Department's Child Crisis Unit for ages 0-10 and the Exploitation Unit for ages 11-15. The Director of Health Services at the Education Service Center will maintain a copy of each completed Child Abuse Report form. District personnel will maintain the District Child Abuse Report form and any summaries of confirmed reports of sexual abuse or severe physical abuse received from the Department of Human Services in a confidential manner. Any violation of the confidentiality requirement can be punished by law. Any summaries of confirmed reports of sexual abuse or severe physical abuse received by District personnel shall be destroyed when the student involved reaches the age of 18.

CLUBS (NON-CURRICULAR)

A non-curricular student club is any club not related directly to a subject taught or soon to be taught at the school. Student religious clubs are permitted to meet, to have equal access to campus media to announce their meetings, and to have equal access to campus facilities and meeting times equivalent to the permission granted by the school to any other non-curricular student clubs.

COMPUTER RESOURCES

All students must adhere to District policies and regulations dealing with use and misuse of computer resources. See Board Policies 6201, "Computing Resources;" 6501, "Internet Protection;" and Regulation 6201-R, "Computing Resources."

COLLECTION OF FUNDS

No person may solicit contributions or collect funds for any purpose from students or school personnel on school property, at school-sponsored events, or on school transportation unless in receipt of written permission of the school principal, the Superintendent or respective designee(s).

CONCERNS/COMPLAINTS

Individuals or groups may register a complaint or share a concern regarding the District's policies, procedures or operations (See Board Policy 1302 & 1302-R) by following the procedures listed below:

Contact (either verbally or in writing) the individual staff member involved to register the complaint or share the concern.

- If the issue is not satisfactorily resolved and it involves a student, contact the appropriate grade level counselor and share (in writing) the complaint and/or concern.

- If the issue involves an employee, contact an immediate supervisor and share (in writing) the complaint and/or concern.
- If the issue is unresolved or not addressed satisfactorily, contact the principal or the administrator responsible for the program/service involved and share (in writing) the complaint and/or concern.
- If the issue remains unresolved, contact the Superintendent or designee and share (in writing) the complaint and/or concern.

Issues not resolved within the chain of command for the District may be referred, in writing, to the members of the Board of Education. The Board will at its discretion determine the disposition of all complaints and/or investigate concerns consistent with its policies and procedures.

DEMONSTRATIONS/MEETING

Any student who wishes to promote, organize or participate in a demonstration or meeting on school premises other than those sponsored by the school must obtain prior written approval from the principal at least five school days prior to the requested activity. The five-day period does not include the day of the request or the day of the activity. Before considering the approval of the request, the principal will determine if the activity will be orderly and peaceful and will not interfere with the rights of others or disrupt the education process.

DIRECTORY INFORMATION

Tulsa Public Schools directory information may include: student names, class designation, school of enrollment, addresses, and phone numbers. It is the practice of the District to provide student names and addresses to institutions of post-secondary education who desire to notify students of educational and scholarship opportunities and the armed services for recruitment purposes. Directory Information may also be produced to other entities pursuant to a request under the Oklahoma Open Records Act. Additionally, the District allows schools to publish directories which include student names, addresses, and telephone numbers.

The District may release this information unless parents or eligible students object to use the student information in this manner.

After the parents or eligible students have been notified, they will have two weeks to advise the District in writing if they refuse to allow the District to provide directory information. At the end of the two-week period, each student's records will be appropriately marked by the records' custodian. This designation will remain in effect until it is modified by the written direction of the student's parent or the eligible student.

Written requests should be submitted to the Office of Accountability at the Education Service Center, 3027 S. New Haven Ave., Tulsa, OK, 74114.

THIS PROVISION CONSTITUTES NOTICE OF RIGHTS TO PARENTS AND STUDENTS WITH REGARD TO THE RELEASE OF DIRECTORY INFORMATION AS REQUIRED UNDER STATE AND FEDERAL LAW.

DISCRIMINATION COMPLAINTS

See the related board policies:

- Board Policy 4901: NONDISCRIMINATION at www.tulsaschools.org/1_Administration/_board_policies/4901.pdf

DISRUPTIVE ACTS AT THE END OF SCHOOL TERM

Any student who engages in disruptive behavior on or near the last day of school with the obvious intent of avoiding disciplinary action may be suspended for the remainder, if any, of the current school year and into the first semester of the following school year.

DRESS CODE FOR STUDENTS

Board of Education Policy 2601, "Student Dress Code," and Regulation 2601-R, "Student Dress Code," specify student dress and grooming requirements. A student's individualism in dress or grooming is encouraged within the constraints of reasonable rules and appropriate standards. The Board expects each student's attire and grooming to promote a positive, safe and healthy environment within the school.

The Board has determined that reasonable regulation of school attire and personal adornment is within its authority and consistent with its responsibility to provide an appropriate environment for learning.

While the Board recognizes individual students have a right to free expression, that right must be balanced with the Board's responsibility to provide a safe, secure and orderly educational environment for all students. The Board wishes for each student to accept responsibility for following the rules in Regulation 2601-R, "Student Dress Code" and solicits the support of parents/guardians in the enforcement of its dress code. The Superintendent or designee will develop and publish the rules in accordance with this policy. The responsibility of upholding and enforcing this code rests with students, parents/guardians, teachers and principals.

Where there is a judgment to be made, the principal will make the decision in accordance with the site policy, within the policy approved by the Board. For the full Board Policy 2601, Student Dress Code, go to www.tulsaschools.org.

All students in TPS will follow the specific uniform policy for their site. Uniforms will conform to TPS dress code requirements. Variations in grade-level or school colors are decided at each site. Principals must approve uniforms for student organizations worn at school.

EXTRA CURRICULAR ACTIVITIES

Extracurricular activities include, but are not limited to, all school sponsored teams, clubs, organizations, ceremonies, student government, band, athletics and all other school sponsored activities and organizations.

FAILING A COURSE

A parent/guardian may request reconsideration of a failing grade by contacting the principal. (See Board Policy 2406)

FERPA (NOTIFICATION OF RIGHTS UNDER FERPA AND PPRA)

The Family Educational Rights & Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. These include:

1. The right to inspect and review the student’s education records within 45 days of the day the school receives a request for access. Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student’s education records that the parent or eligible student believes is inaccurate, misleading or otherwise in violation of the student’s privacy rights under FERPA. Parents or eligible students who wish to ask the school to amend a record should write the principal (or appropriate school official), clearly identify the part of the record they want changed and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent (see Directory Information Notice on www.tulsaschools.org > Parents > Enroll or Transfer Your Child).

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board of Education; a person or company with whom the school has contracted as its agent to provide a service instead of using its own employees or officials (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

- A. school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. Additional rights under the Protection of Pupil Rights Amendment (PPRA) afford parents certain rights regarding the administration of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:
 - A. Consent before students are required to submit to a survey that concerns one or more of the following protected areas (“protected information survey”) if the survey is funded in whole or in part by a program of the U.S. Department of Education—
 - i. Political affiliations or beliefs of the student or student’s parent;
 - ii. Mental or psychological problems of the student or student’s family;
 - iii. Sex behavior or attitudes;
 - iv. Illegal, anti-social, self-incriminating, or demeaning behavior;
 - v. Critical appraisals of others with whom respondents have close family relationships;
 - vi. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
 - vii. Religious practices, affiliations, or beliefs of the student or parents; or
 - viii. Income, other than as required by law to determine program eligibility.
 - B. Receive notice and an opportunity to opt a student out of —
 - i. Any other protected information survey, regardless of funding;
 - ii. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by

the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under state law; and

iii. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

C. Inspect, upon request and before administration or use –

- i. Protected information surveys of students;
 - ii. Instruments used to collect personal information from students for any of the above marketing, sales or other distribution purposes; and
 - iii. Instructional material used as part of the educational curriculum.
5. Parents and eligible students may obtain a copy of the district's student records policy from their building principal or the superintendent's office.
 6. Parents have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA or PPRA. The name and address of the office that administers FERPA and PPRA are: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave. SW, Washington, DC 20202-5901.

GANG CULTURE

To maintain the safety of students and staff and to ensure the appropriate learning environment, Tulsa Public Schools will not tolerate behavior which is indicative of the criminal street gang culture. This includes, but is not limited to, gangster-style clothing, gangster rap music, and gang-style language, graffiti or gestures. Tulsa Public Schools recognizes that this criminal street gang culture is dynamic and ever changing, and has trained personnel to recognize behavioral indications (i.e. showing certain colors and certain manners of dress) of this culture. Students participating in such behavior will be counseled and BRP sanctions may be imposed.

Tulsa Public Schools realizes that many of these characteristics may be fashionable with students, and the district is not accusing persons exhibiting these behaviors of having gang affiliations. However, these behaviors are known to endanger students and disrupt the learning environment and will not be tolerated.

HAZING AND INITIATIONS

Activities that endanger an individual's mental or physical health, which are required for initiation/entrance into any group are prohibited.

INTERNET/COMPUTER NETWORKS ACCEPTABLE USE AND INTERNET SAFETY POLICY

In order for TPS to ensure students and staff may continue to use its computer network and the Internet, all users must take responsibility for appropriate and lawful use. While the school staff will make reasonable efforts to supervise student use of network and Internet access, students must cooperate in exercising and promoting responsible use of district computers.

Personal Responsibility: Each student agrees to follow the rules in this policy and to report any misuse of the network to the person designated by the school for such reporting. Misuse means any violations of this policy or any other use that is not authorized under this policy and has the effect of harming another or his or her property.

Acceptable Uses of Network: Educational Purposes Only. The District is providing access to its computer network and may consult with the person(s) designated by the school to help decide if a use is appropriate.

School use must support education and research and must be consistent with educational objectives. Use of other organizations' network or computing resources must comply with the rules appropriate for that network. Transmission of any material in violation of any U.S. or state regulation is prohibited. This includes, but is not limited to, copyrighted material, threatening or obscene material or material protected by trade secret. Use in political lobbying is also prohibited.

Unacceptable Uses of Network: The uses considered unacceptable and which constitute a violation of this policy include:

1. **Uses that violate the law or encourage others to violate the law.** Do not transmit offensive or harassing messages; offer for sale or use any substance, the possession or use of which is prohibited by the school District's student discipline policy; view, transmit or download pornographic materials or materials that encourage others to violate the law; intrude into the networks or computers of others; and download or transmit confidential, trade secret information, or copyrighted materials. Even if materials on the networks are not marked with the copyright symbol, the user should assume that all materials are protected unless there is explicit permission on materials to use them.
2. **Uses that cause harm to others or damage to their property.** For example, do not engage in defamation (harming another's reputation by lies); employ another's password or some other user identifier that misleads message recipients into believing that someone other than the user is communicating or otherwise using his/her access to the network or the Internet.
3. **Uses that jeopardize the security of student and staff** access and of the computer network or other networks on the Internet.
4. **Uses that are commercial transactions.** Students may not sell or buy anything over the Internet. Students should not give others private information about the user or others, including credit card numbers and social security numbers.

Etiquette

An Internet user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

1. Be polite. Messages should not be abusive to others. Use appropriate language. No swearing, vulgarities, suggestive, obscene, belligerent or threatening language.
2. Avoid language and uses that may be offensive to other users. Do not access to make, distribute or redistribute jokes, stories, or other material based upon slurs or stereotypes relating to race, gender, ethnicity, nationality, religion, disability or sexual orientation.
3. Do not assume that a sender of e-mail is giving his/her permission for the user to forward or redistribute the message to third parties or to give his/her e-mail address to third parties. This should be done only with permission or when the user knows that the individual would have no objection.
4. Be considerate when sending attachments with e-mail (where permitted). Be sure the file is not too large to be accommodated by the recipient's system and is in a format the recipient can open.
5. Do not reveal personal addresses or phone numbers of students or colleagues.
6. Note that electronic mail (e-mail) is not private. People who operate the system have access to all mail. Messages related to or in support of illegal activities may be reported to the authorities.
7. Do not use the network in such a way to disrupt the use of the network by other users.
8. All communications and information accessible via the network should be assumed to be private property.

Security

Security on any computer system is a high priority, especially when the system involves many users. If you feel you have identified a security problem on the network, you must notify a teacher. Do not demonstrate any problems to other users. Do not use another individual's account. Attempts to log in to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the Internet.

MEDICATIONS

Prescription and non-prescription medicines and drugs, over-the-counter medications, and relevant medical equipment and/or supplies must be delivered to the school health clinic in person by the legal custodian (or the legal custodian's designated adult) of the student, unless the medication must be retained by the student for immediate administration.

The legal custodian must complete the form Administration of Medication authorizing the medication to be administered. If the legal custodian requests self-administration, the form entitled Contract for Exception: To Self-Administer and Retain Medication on Person must be completed. These forms are available at any school clinic. Additional information and requirements related to medication administration can be found in Board Policy 2105, Administering Medications to Students, and Board Regulation 2105-R, Administering Medications to Students.

MENINGOCOCCAL DISEASE Oklahoma State Law 70 § 1210.195 requires dissemination of the following information on Meningococcal

Disease: Source: Communicable Disease Division — Oklahoma State Department of Health

What is Meningococcal disease? Meningococcal disease is caused by the bacteria *Neisseria meningitidis*, also cause meningococcus. This bacterium can infect the blood and cause septicemia. It can also infect the covering of the brain and spinal cord, causing meningitis.

How is the disease spread? Meningococcal disease spreads through direct contact with the saliva or with respiratory droplets from the nose and throat of an infected person.

Who is at risk of getting this disease? Some groups of people have a higher risk of meningococcal disease, such as first-year college students living in dormitories or new military recruits living in barracks. Other persons at increased risk include household contacts of a person known to have had the disease, immunocompromised people, people without a spleen, and people traveling to parts of the world where meningococcal disease is more common. Exposure to tobacco smoke and having a concurrent upper respiratory infection also increase the risk of meningococcal disease. Infants are at highest risk, but rates decrease after infancy and then increase in adolescence and young adulthood.

What are the symptoms? Ten percent or more of people are thought to be carrying *Neisseria meningitidis* in their nose and throat without being ill, which is called "asymptomatic carriage". Of these people, about 1% can develop illness, which may be meningitis or a blood-stream infection called septicemia or meningococcemia. As described above, some people can carry the bacteria in their nose and throat without ever becoming ill. Signs of illness may include fever, severe headache, nausea, vomiting, and a rash. People who develop meningitis can have fever, intense headache, nausea, vomiting stiff neck and extreme sensitivity to light. It is important to seek care from a health care provider as soon as possible if these symptoms appear. Meningococcal disease has a 15% risk of death if it is not treated promptly.

How soon do the symptoms appear? Symptoms may appear two to 10 days after infection, but usually within three to four days.

What is the treatment for meningococcal disease? Antibiotics such as penicillin or a cephalosporin such as ceftriaxone are used to treat meningococcal disease.

Should people who have been around a person infected with meningococcal disease be treated? When meningococcal disease occurs in one person, only people who have been in close contact with that person's respiratory secretions are recommended to receive antibiotics. These include (household members, intimate contacts, health care personnel performing mouth-to-mouth resuscitation, day care center playmates, etc.). Such people are usually advised to obtain a prescription for a specific antibiotic (rifampin, ciprofloxacin, ceftriaxone, or azithromycin) by their physician. The health department will contact the individuals who are recommended to receive antibiotics, and advise them of option to obtain antibiotics. Casual contacts including classmates, coworkers or those in a factory setting are not at increased risk of disease when a single person has meningococcal illness. When clusters or outbreaks occur, the health department may expand the recommendations for which groups need to receive antibiotics to prevent possible spread. Antibiotics do not protect people from future exposure to *Neisseria meningitidis*.

Is there a vaccine to prevent meningococcal disease? Three types of meningococcal vaccines are available in the United States. They are effective against four of the five most common disease-causing types of meningococcal disease: A, C Y and W-135. An additional vaccine is now available that protects against serogroup B, but is currently only licensed for high-risk children over ten years of age. Consult with your healthcare provider or the local health department about receiving the vaccine.

MOTOR VEHICLES ON SCHOOL GROUNDS

Each school principal has the responsibility of establishing motor vehicle regulations according to the needs of the school. Students in violation may have their school parking privileges revoked and may be subject to suspension. A principal's decision to limit or revoke parking privileges is final and may not be appealed.

PARENTS RIGHTS IN SPECIAL EDUCATION

Parents/guardians of children with disabilities are entitled to protections under the Individuals with Disabilities Education Act (IDEA) and/or Section 504 of the Rehabilitation Act/Title II of the Americans with Disabilities Act before the district may change the student's educational placement for disciplinary reasons. For specific information explaining these procedural protections under IDEA, consult the handout entitled "Parents Rights in Special Education: Notice of Procedural Safeguards," copies of which are available at school sites at no charge. For specific information explaining procedural protections under Section 504 and Title II, consult the handout entitled "Section 504 of the Rehabilitation Act of 1973/Title II of the Americans with Disabilities Act Information and Procedural Safeguards," copies of which are also available at all school sites without charge. Contact the TPS Department of Special Services in the Education Service Center, 918-746-6800, with questions or for additional information.

PUBLIC OFFICE/POLITICAL CAMPAIGNS

Distribution on school premises of literature or commercial advertising advocating the nomination or election of any person for public office is expressly prohibited.

READMITTANCE AFTER SUSPENSION

Students returning from any suspension must re-enroll and will again be required to provide current proof of address (gas bill, electric bill, etc.). Students returning from a long-term suspension may be required to bring a parent/guardian and sign an agreement stipulating, if any legal offense recurs, the student may be suspended for the remainder of the current semester and the succeeding semester. Before the student will be admitted back to school, they must complete an assessment that is provided free of charge using the TPS Student Referral For Free Assessment form available in the school office.

RETENTION & PROMOTION

See Policy 2406 http://www.tulsaschools.org/1_Administration/_board_policies/2406.pdf.

SEARCHES Search of School Property

All school property (lockers, desks, etc.) assigned to students is the property of Tulsa Public Schools. The student is given a temporary right to use the property which may be revoked at any time.

School property may not be used to store contraband or other prohibited materials, objects, etc., that are in violation of school rules. The school principal or designee may at his/her discretion authorize the search of any school property without the permission of the student or the presence of the student. Students have no expectation of privacy as to lockers, desks or other school property temporarily assigned for their personal use. School personnel may remove from lockers or desks any articles that are prohibited at school or could be used to interfere with or disrupt the educational process.

No person attending a school-sponsored event may conceal on his/her person, in a purse, handbag, etc., any weapon, narcotic, dangerous drug, alcohol, or any other substance or object that is in violation of local or state ordinances or school rules.

Search of Student's Person/Possessions

Any individual entering a TPS facility may be subject to scans by either walk-through or hand-held metal detectors. As set out below, the school principal or designee may also authorize the search of a student's person or personal property and seize prohibited, illegal or harmful items in the student's possession. Except for a metal detector search, there must be a reasonable suspicion by school authorities to believe the student is in possession of an item, the possession of which constitutes a crime or a school rule or board policy violation.

Procedures regarding searches other than those conducted by use of a metal detector are as follows: The student must be told, prior to the search, what item or substance is being sought. The search must be done in a manner that avoids undue humiliation to the student. The search of a student's person must be conducted by a person of the same gender as the person being searched and should normally be witnessed by at least one other authorized person, said person to be of the same gender, if practical. Under no circumstances shall a strip search be conducted.

School authorities may seize prohibited or illegal items or other substances. Items that could reasonably be expected to be used to disrupt or interfere with the educational process may be temporarily removed from student's possession. NOTE: Refusal to submit to a search, when reasonable suspicion exists, may result in suspension.

SMOKING/TOBACCO/E-CIGARETTES

All Tulsa Public Schools facilities are tobacco and smoke free. Tobacco use by students or staff is strictly prohibited. It is against Oklahoma State Law 37-600.4A for persons under the age of 18 to possess tobacco or tobacco products. Students smoking or in possession of tobacco will be subject to discipline procedures by the school and fines by the State of Oklahoma ABLE Commission. Smoking means the carrying by a person or having access to a lighted cigar, cigarette, pipe or other smoking article. Smoking also includes using products which mimic or simulate smoking behavior, regardless of whether such products actually contain tobacco. This prohibition includes but is not limited to e-cigarettes, personal vaporizers, and electronic nicotine delivery systems. See related board policies 2108 and 4402.

STUDENT DISTRIBUTION OF WRITTEN MATERIALS IN SCHOOL

Distribution of written materials by students in school facilities is governed by Board Policy 2604 and Regulation 2604-R.

SUSPENSIONS Homebased Instruction

Suspended students who are provided with home-based instruction will receive support for core academic courses only. Accordingly, this support will not include Honors course, Advanced Placement courses, or International Baccalaureate course.

Suspension for students with Disabilities Disciplinary Removal of Students with Disabilities under the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act/Title II of the Americans with Disabilities Act

The term "disciplinary removal" refers to every out-of-school suspension and any other disciplinary consequence that changes the educational placement of a student with a disability.

The district may implement a disciplinary removal of a student with a disability from the student's current educational placement for up to 10 consecutive or cumulative school days in a school year for any violation of school policies, rules or regulations, to the same extent that it would implement the removal of any other student for the same violation.

The district may implement a disciplinary removal of a student with a disability from the student's current educational placement beyond 10 days cumulative or consecutive in any school year in the same manner it disciplines other students for behavior that is not a manifestation of the student's disability. The building principal or designee will determine the number of days of disciplinary removal to be imposed and implemented for a violation of school policies, rules or regulations. **Special education services must be provided to the student for the duration of the suspension beginning the eleventh day as determined by the IEP team.**

Homework Policy

It is the parent/guardian's responsibility to secure homework assignments for students who are suspended. An Education Plan for each student suspended for six days or more is required by Board Policy 2619, Student Suspension, www.tulsaschools.org and Oklahoma State Law 70-24-101.3 except as to suspensions involving firearms.

Off-Campus Conduct

The school principal or designee may suspend a student based upon off-campus conduct by the student when the principal/designee concludes that the off-campus conduct indicates that the student's continued attendance would have an adverse impact on order, discipline or the educational process at the school.

Suspension for Students with Disabilities Disciplinary Removal of Students with Disabilities under the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act/Title II of the Americans with Disabilities Act

The term "disciplinary removal" refers to every out-of-school suspension and any other disciplinary consequence that changes the educational placement of a student with a disability.

The district may implement a disciplinary removal of a student with a disability from the student's current educational placement for up to 10 consecutive or cumulative school days in a school year for any violation of school policies, rules or regulations, to the same extent that it would implement the removal of any other student for the same violation.

The district may implement a disciplinary removal of a student with a disability from the student's current educational placement for more than 10 consecutive or cumulative school days in any school year in the same manner it disciplines other students for behavior that is not a manifestation of the student's disability. The building principal or designee will determine the number of days of disciplinary removal to be imposed and implemented for a violation of school policies, rules or regulations.

VIOLENT BEHAVIOR

Tulsa Public Schools is committed to providing a safe and orderly learning environment for all students and will not tolerate behavior which is dangerous or disruptive to the learning process. Any student exhibiting violent behavior on school property or at a school function may be subject to immediate suspension pending an investigation of the incident. Additionally, the student may be subject to prosecution by law enforcement authorities.
